

Belts:

Inserters:

splitter

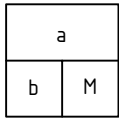

splitter with right priority input

splitter with left priority output

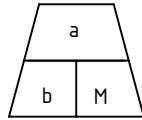

Assembler:

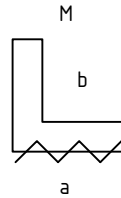

a: name/symbol of crafted item
b: level (1/2/3)

Smelter:

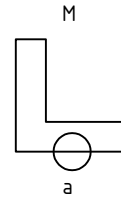

a: name of smelting output
b: level (1/2/3)

Mining drill:

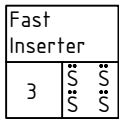

a: name of mined resource
b: fuel

Big mining drill:

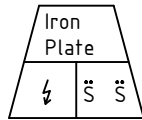

a: name of mined resource

Example:

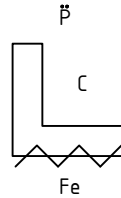

Level 3 assembling machine for Fast Inserters with 4 level 2 speed modules

Example:

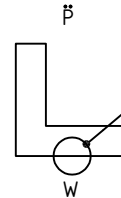

Level Electric furnace with 2 level 2 speed modules

Example:

Coal powered burner drill mining iron with a level 2 productivity module

Example:

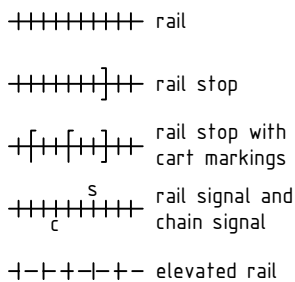

Big miner mining Tungsten with a level 2 productivity module

add leader notes for additional info like production rate

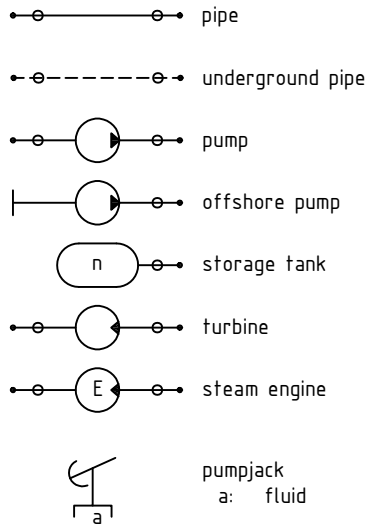

Science Laboratory:

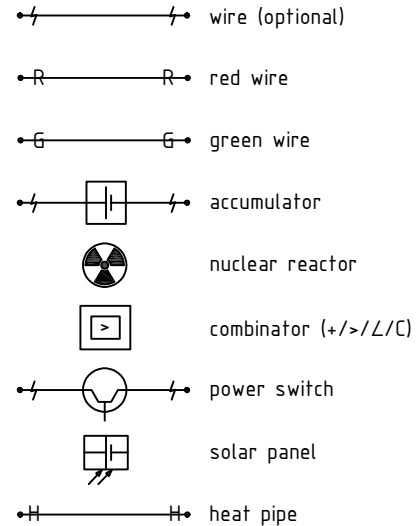

Rails:

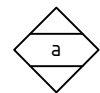

Fluids:

Electricity:

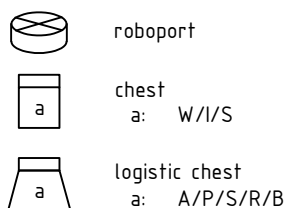

Water-steam transformation:

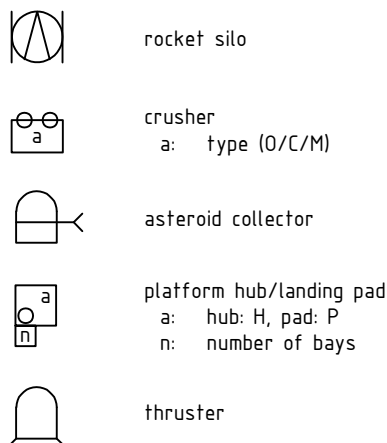

a: B for boiler or HE for Heat Exchanger
