

Additional notation:

Use blocks like IC-s for easier notation
example: 4->4 balancer:

Annotate belts if necessary:

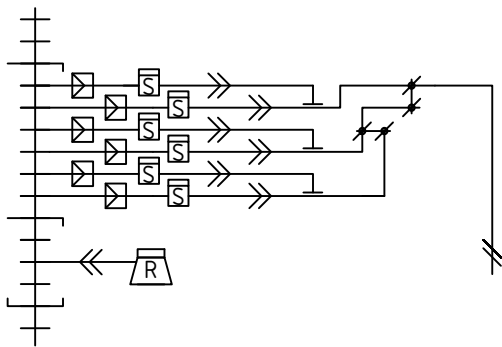

Filling 1 side of belt:

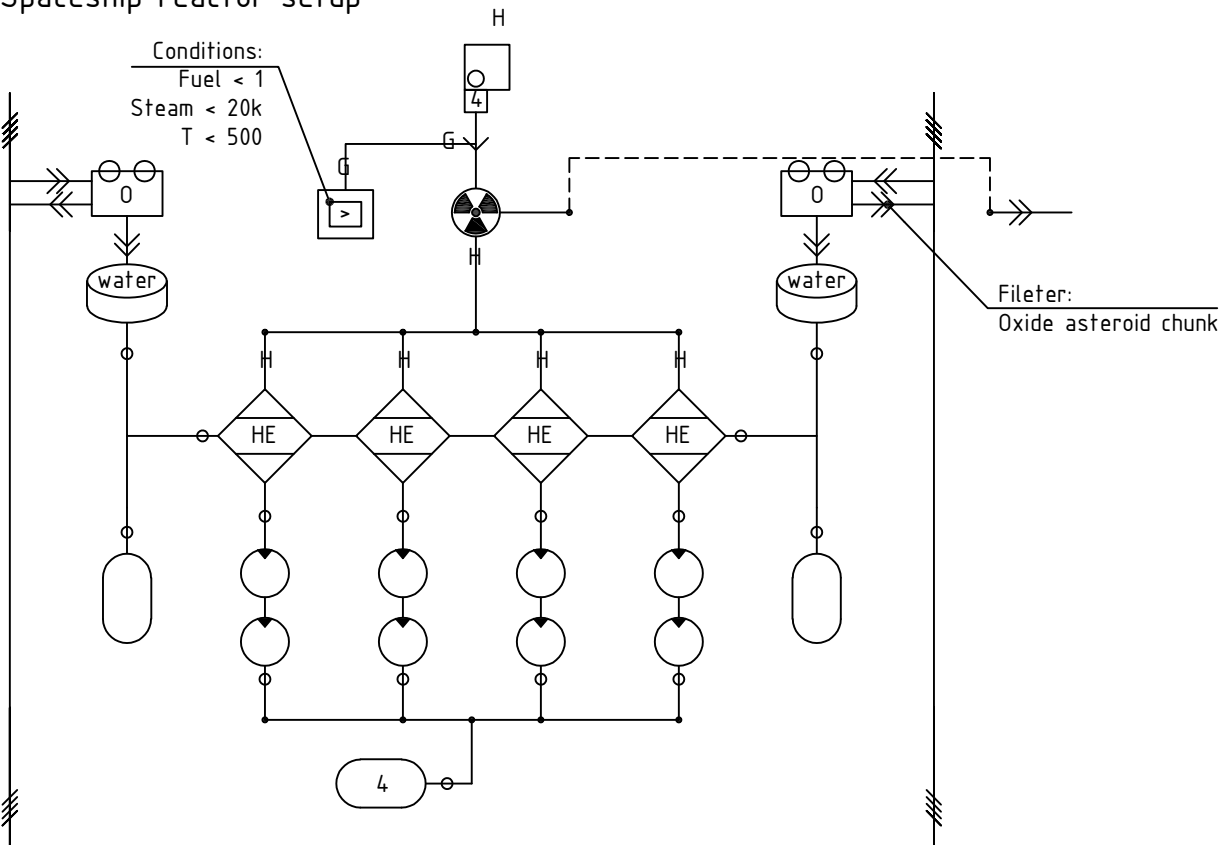

Showcase:

Train unload

Spaceship reactor setup

Modules and quality:

M: place for modules

modules:

S/P/E/Q

for every level add 1 dot on the top:

S for level 2

Quality:

common: (blank or:)

uncommon:

rare:

epic:

legendary:

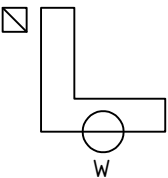

if there isn't place for modules, use space above or below

Example:

legendary big drill with 3 level 2 quality modules:

ööö

Quantity:

n: how many of that component is interconnected, E.g.: storage tanks

for components without dedicated quantity indicator use "xn" format, E.g.:
